“

At HSBC, my role compels me to bring innovations & change each day, which keeps me motivated. I am passionate about change & challenges, and I chose MBA WX to learn beyond what I know & come out with some exceptional outcomes. This course is the most suitable for me given my work and personal commitments. I have taken Finance and Leadership as my dual specialisations because I am sure these two will help me take my career ahead. The program is highly recommended because it covers all aspects and is a blend of all the subjects that matter in a professional business environment.

Fast-track Intensive Learning

The program is designed for intensive learning across 5 terms. The first two terms offer you a background in general business management while the next two focus on your chosen field/s of specialisation. The fifth term is dedicated to the Capstone Project.

Capstone Project for hands-on learning

Capstone Business Simulation Project is the global standard for management programs. It offers you an excellent ecosystem to synthesise & apply concepts and techniques.

Student Success Team

NMIMS Global offers a dedicated counselor to the course participants as a one stop solution on all their queries. This helps them transition into the course and resolve their problems at any point during the course with ease. A live chat console helps the participants interact with the counselor as well as their batchmates.

For leaders in the making

Deep Dive Study Plan

The program is designed to make learners focus and deep dive into a subject for 15 days at time. Each term has five subjects, and each subject is completed before the next begins.

Continuous Assessment for Enhanced Retention

Regular lecture-based assessments across 15 days to ensure immediate retention followed by online-proctored term-end examination for a robust overall assessment.

Tailor your MBA Program

The program encourages you to broaden your fields of expertise as it allows you to graduate with two specialisations. You can choose from core & dual specialisations: Leadership and Strategy, Marketing, Operations & Supply Chain, Digital Marketing and Applied Finance.

81% of MBA (WX) participants prefer Dual Specialisations

“

I have graduated with an M.Com. from Mumbai University, with a specialisation in Marketing. I currently handle my family business which I can't leave to pursue a full-time MBA course. I want to take my company to the 200 - crore turnover club. This course gives me the best possible combination with evening lectures through an online portal and yet being so rigorous. I have taken Marketing as a specialisation because I want to equip myself with better marketing skills to help my business grow.

LEARN FROM THE BEST

Leading business thinkers from the academia and industry allow you to absorb eminent theories and business practices

“

I think what really builds in the rigour and efficacy into the MBA (WX). Program is its smart design incorporating live online interactive sessions, regular student-support, and back-to back assessments. The Program embeds real time application-oriented learning from faculty and reinforced learning with assessment and collaborative tools. As a faculty, I have found the in-class interaction among participants with diverse work experience create an evolving dimension to the courses, truly enriching.

“

I currently work as a Business Analyst at Estee Lauder, having graduated earlier with an M.Com. degree and 2 levels of CA. Finance is something which really interests me and being a CFO is something that my ultimate goal would be. Through this course, I can continue to work thereby increasing my work experience and add value through an Executive MBA & that too from NMIMS Global. It is a win-win situation after analysing all the costs and benefits. Also, the course completes in 15 months, and is a rigorous programme along with unaffected work so I am experiencing almost a full-time MBA.

I graduated with Bachelors of Mass Media (BMM) with a major in journalism, and have almost 15 years of work experience. I wish to pursue a career in marketing and ideally work as a brand manager at Nike or Armour. I wanted to work and study at the same time, and MBA (WX) seemed more feasible to that end. The course allows one to choose 4 subjects from another stream which is fantastic as this gives more scope for learning and understanding another vertical. I have loved the way the course is designed and the flexibility it provides for working professionals. It is a great balance of rigour and flexibility

MBA(WX) Program Structure

The businesses of today require both specialist and multi-disciplinary approaches to expand the depth and width of their offerings to consumers. To help develop your growth trajectory for a global marketplace, terms 3 & 4 offer you to choose either a core specialisation to sharpen a skillset or dual specialisations to help you broaden your expertise.

SPECIALISED LEARNING & SKILL BUILDING

Term 3

5 Subjects

Term 4

5 Subjects

Leadership and Strategy: This specialisation is designed for professionals who want to develop a broad set of skills needed for general management positions. Focused on building a strong foundation in leadership, courses on strategy help address realities of today's global businesses.

Marketing: The marketing curriculum includes a set of theory and experiential courses which focus on developing innovative marketing techniques that help solve real world problems.

Operations & Supply Chain: Specialising in this track will enable the professional make decisions in Operations and Supply Chain Management from an international perspective. The learner will acquire a thorough perspective in procurement, logistics, service operations and more.

Applied Finance: This specialisation covers aspects related to a business's financial investments and capital. Some areas include security analysis and portfolio management, financial engineering, and financial reporting & analysis.

Digital Marketing: Digital Marketing specialisation enriches participants with a comprehensive set of tools to drive marketing and communication strategies via the digital channels and how to integrate them well with the overall marketing efforts.

REAL WORLD EXPERIENCE

Term 5

Capstone Project

The 5th term constitutes a capstone project i.e. a multifaceted assignment that serves as a culminating academic and intellectual experience.

The Capstone Business Simulation, used by more than 600 business schools worldwide, helps you:

- Synthesise concepts and techniques from the core & specialisation courses, and work experience in an integrated approach.
- Make strategic and tactical decisions in all domains of the business with an overlay of corporate governance and strategic management.
- Assimilate and analyse information, draw meaningful conclusions, and recommend appropriate courses of actions to resolve complex issues in a changing competitive business environment.

Electives in Term 5

In this term, students will be offered an Analytics elective based that will be in tandem with their choice of specialisation.
